## Magia di colore e materia

The magic of colour and texture

Il termine ALCHIMIA ben definisce la particolare estetica di questa collezione, dove l'accostamento insolito di materia, colore e forma porta a un risultato sorprendente di profonda affinità tra componenti diverse e maturate nel tempo. La scoperta di un'antica pavimentazione in un palazzo emiliano del '500 ci fa riscoprire il fascino di superfici in cemento colorato dal pacato effetto "terrazzo", rese ancora più originali dai segni di usura del tempo che ne hanno modificato le tonalità e le texture.

ALCHIMIA ("alchemy") well defines the special appearance of this collection, in which the unusual combination of material, colour and shape creates a surprising result of deep-down affinity among different components aged over time. The discovery of an ancient floor in a 16th century building in Emilia allows us to rediscover the charm of coloured concrete surfaces with a clear "terrazzo" effect, made even more original by the signs of wear that over time have changed the colours and textures.
